Figure 43

Figure 44

Figure 47 is a graph showing the relationship between the ratio  $B/A$  (x-axis) and the angle  $\text{atan}(B/A)$  in degrees (y-axis). The x-axis ranges from 0 to 1.0, and the y-axis ranges from 0 to 45. A dashed line represents the function  $\text{atan}(B/A)$ , which is a straight line from (0,0) to (1,45). A solid line follows the dashed line until  $B/A \approx 0.25$ , then curves slightly above it, reaching (1,45).
